ALUTEC Offers New Applications for Tesla Model 3

Bad Dürkheim, June 17th, 2021

Over the past few years, the fully electric Tesla Model 3 has established itself as an innovative pioneer when it comes to electromobility – and a stylish-looking one too. ALUTEC, a Superior Industries brand, is now offering three new applications for the American car manufacturer’s flagship product. These highlight the futuristic design of the electric vehicle.

PEARL in an 8.5 x 19-inch version in carbon-gray, RAPTR in 8.5 x 19 inches and racing-black front polished or racing-black, and MONSTR in 8.5 x 19 inches and the colors polar-silver, racing-black or metallic-bronze. All three alloy wheels have an offset of 40 and come with an ABE certificate so they can get straight on the road.

About Superior Industries

Superior is one of the world’s leading manufacturers of aluminum wheels for light vehicles. Superior supplies aluminum wheels to well-known automotive manufacturers and is the market-leading manufacturer of aluminum wheels for the accessories market (aftermarket) in Europe.

Superior maintains the leading European aftermarket brands ATS®, RIAL®, ALUTEC®, and ANZIO®. Superior has eight production plants, which are located in the U.S., Mexico, Germany and Poland. Superior currently employs more than 7,600 people worldwide.

Headquartered in Southfield, Michigan, Superior is listed on the New York Stock Exchange. For more information, please visit www.supind.com.
