

## **Press release**

**W10 X and MONSTR**

## **New wheel sizes for the new Mercedes-Benz C-Class and the Ford Mustang Mach-E**

Bad Dürkheim, October 14th, 2021

**ALUTEC, a Superior Industries brand, is making new sizes of its W10 X and MONSTR alloy wheels, thus expanding its range for the Mercedes-Benz C-Class and the Ford Mustang Mach-E.**

The W10 X alloy wheel is now available in 8 x 18 inches with an offset of 40 for the Mercedes-Benz C-Class and in 8 x 18 inches with an offset of 45 for the Ford Mustang Mach-E. ALUTEC is also introducing a new size for MONSTR, which is now available in 8 x 18 inches with an offset of 45, also designed to fit the German automotive manufacturer's C-Class.

### **W10 X – focused on detail but not lost in it**

This wheel features five pairs of sculpted spokes which will delight design enthusiasts in particular. Available with racing-black front polished paintwork, W10 X delivers an elegantly sporty look for both the C-Class and the Ford Mustang Mach-E.

### **MONSTR – precision at the highest level**

Six pairs of V-shaped spokes complement the classic elegance of the Mercedes-Benz C-Class. The result is a double dose of great German engineering, in both the vehicle and the wheel. MONSTR is available in two color variants: metallic-bronze and racing-black.

## About Superior Industries

Superior is one of the world's leading manufacturers of aluminum wheels for light vehicles. Superior supplies aluminum wheels to well-known automotive manufacturers and is the market-leading manufacturer of aluminum wheels for the accessories market (aftermarket) in Europe.

Superior maintains the leading European aftermarket brands ATS®, RIAL®, ALUTEC®, and ANZIO®. Superior has eight production plants, which are located in the U.S., Mexico, Germany and Poland. Superior currently employs more than 7,600 people worldwide.

Headquartered in Southfield, Michigan, Superior is listed on the New York Stock Exchange. For more information, please visit [www.supind.com](http://www.supind.com).
