

Press release

New Application from ALUTEC

ALUTEC ADX.01 now available for the Kia EV6

Bad Dürkheim, December 2nd, 2021

Move in Style: ALUTEC, a Superior Industries brand, is expanding its range of sizes for the ADX.01 alloy wheel with a new application for the Kia EV6.

The striking alloy wheel ADX.01 is now available in an 8.5 x 20-inch version with an offset of 50 for the first strictly electric vehicle from Kia – the EV6.

The ADX.01 alloy wheel stands out with its five double spokes and a distinctive, sporty design. An undercut ensures ideal weight ratios while at the same time making the wheel seem bigger and lending it additional depth. Whether in diamond-black front polished, metallic-platinum front polished, or metallic-bronze front polished paintwork – the ADX.01 is a seductive addition to the stylish Kia EV6.

About Superior Industries

Superior is one of the world's leading manufacturers of aluminum wheels for light vehicles. Superior supplies aluminum wheels to well-known automotive manufacturers and is the market-leading manufacturer of aluminum wheels for the accessories market (aftermarket) in Europe.

Superior maintains the leading European aftermarket brands ATS®, RIAL®, ALUTEC®, and ANZIO®. Superior has eight production plants, which are located in the U.S., Mexico, Germany and Poland. Superior currently employs more than 7,600 people worldwide.

Headquartered in Southfield, Michigan, Superior is listed on the New York Stock Exchange. For more information, please visit www.supind.com.
