A Fresh Style for the Road

ALUTEC Launches the New ADX.02

Bad Dürkheim, March 29, 2022

ALUTEC, a brand of Superior Industries, is expanding its range of multi-spoke wheels with the new ADX.02 alloy wheel. With its forward-looking aesthetic, it is conceived especially for design enthusiasts.

The ADX.02 alloy wheel has an expressive look that makes an optical statement on any vehicle. With three extravagant colors to choose from on its launch – diamond-black front-polished, diamond-black, and metallic-bronze – ADX.02 is already setting new visual trends.

An extraordinary wheel with a special design

ADX.02 stands out with its five asynchronous double spokes and a distinctive, bold design. The unconventional style of the alloy wheel fits in perfectly with the ADX series. An undercut ensures ideal weight ratios for the 19-inch version of the alloy wheel and gives the wheel the visual finishing touch.

For the launch, ADX.02 is available in sizes of 7.5 x 18 inches and 8.0 x 19 inches with a 5-hole connection. In addition, the 7.5 x 18-inch version of the alloy wheel is also available with a 4-hole connection. Further applications are already planned.

A separate landing page for the new ADX.02 is now available to all ALUTEC fans at www.alutec.de/adx02.
