

## Press release

### New Color Scheme

## MONSTR is now also available in metallic-bronze

Bad Dürkheim, March 23, 2021

**ALUTEC, a brand of Superior Industries, is expanding the color palette for its popular alloy wheel MONSTR. Customers can now select their personal highlight from among three stylish paint options – racing-black, polar-silver and the new metallic-bronze.**

Six slender, athletically designed pairs of spokes grant MONSTR alloy wheels from ALUTEC their unmistakable sporty yet elegant look. In addition to the classic colors racing-black and polar-silver, Superior Industries is now providing this model range in a third color variation. With the noble metallic-bronze version, the alloy wheel offers drivers even more creative freedom to tailor vehicles to their individual design preferences.

The four-hole version is available in the sizes 6.5 x 16 inches, 6.5 x 17 inches, and 7.5 x 18 inches; the five-hole version is additionally available in the sizes 8.5 x 18 inches and 8.5 x 19 inches. This variability makes it suitable for a wide range of different vehicle models. And with the five-year warranty on all MONSTR models, there's nothing standing between you and the open road.
